Children are expected to conduct themselves at a normal level of development for their age group. They will be expected to interact with their peers in group activities. All rules shall be explained to each child in a manner which he/she can easily understand. All disciplining shall be fair, non-discriminatory, and appropriate to the infraction of the rules.

There shall be no physical punishments or disciplinary action administered to the body such as, but not limited to, spanking, forcing a child to maintain an uncomfortable position, restraining to restrict movement, enclosing in a confined space, or using exercise as punishment. Children shall not be shaken; Staff shall not force eating or withhold snack as a means of discipline.

Staff shall not be verbally abusive to the child - this includes not making threats or belittling remarks about the child or the family. The primary method of discipline shall be a positive reinforcement rather than a negative one. A staff person or volunteer shall intervene immediately if the child's behavior could be harmful to himself/herself or to others.

Acceptable discipline shall include attempting to work individually with the child. It may be necessary to separate the child from the group or activity in which he or she is involved ("in house suspension"). As a last resort, the technique of "time out" may be used.

EXTREME DISCIPLINE PROBLEMS

A chronic problem of misbehavior which disrupts the group will be discussed by staff, examples (fighting, constant disregard for the rules and being disrespectful). A meeting with the parent/guardian may be necessary to determine whether the child has any physical condition (Hyperactivity, dyslexia) or attention-span deficiency and if any medications are being used. If a good solution to the situation does not appear to be possible, the Director shall meet with the Administrators to determine if the child should be suspended from the program or if the family should be asked to withdraw the child for the good of the total program. Families of children asked to withdraw will be given a one-week notice.

ILLNESS & INJURY

In case of illness, parent/guardian will be notified and will be required to pick-up the child as soon as possible. Three non-pick ups after parental notified of illness will result in suspension from the program. Should a child become seriously ill or injured during the program, the L.O.W. Fire & Rescue will be called, and parents notified ASAP. Permission for emergency procedures must be on file for each participating child.

The Department of Social Services requires an up-to-date medical report to be provided to the Child Care Center if the child is being enrolled in the program for the first time and the school medical records are more than two years old.

As required by Virginia State Statutes Section 63.1-248.3 the employed staff of The Lake of the Woods Church Child Care Center will comply by promptly reporting any suspected child abuse or neglect to the Orange County Protective Services. Also, any information received by one the staff pertaining to the abuse or neglect of a child will be shared with the Director and Administrator and said information will be relayed to County officials pursuant to the statute cited above.

GUIDELINES FOR THE CHILD CARE CENTER STAFF

GOALS FOR THE STAFF

1. To encourage children to become happily involved in the various activities offered to the children.

3. To impart a Christian understanding of life, this may not be present within the homes or schools today.
4. To maintain a safe, stress-free and positive atmosphere during C.C.C. hours.

5. To be available to help children with school work, playing games or learning other skills.
6. To give opportunities for exploring, experimenting and free-play.

INTERACTION BETWEEN STAFF AND CHILDREN

The staff is here to supervise the children and to help them make responsible choices. The staff is the key to a successful program. Hence, the staff will model the behavior which is expected from the children. In other words, the children will be treated as one should like to have been treated when he/she was a child. The staff will interact frequently with the children, expressing affection toward them by smiling and speaking kind words of encouragement to them. The staff will be available and responsive to the needs of the children. The staff will encourage children to share experiences, ideas and feelings, while listening to them with attention and respect. Staff will speak with children in a positive, friendly; courteous manner. Give directions and feedback in a positive manner (i.e., encourage children in what they should do, rather than emphasizing negative behavior). Always instruct children privately when they have done something wrong. Children of all races, religions and cultures will be treated with equal respect and consideration. Children of both sexes and ages will have equal opportunities to take part in all activities.

Encourage developmentally appropriate independence in the children. Foster this independence in routine activities, such as picking up play equipment and toys, wiping up spills, personal grooming, obtaining and caring for materials, etc. Abstain from corporal punishment or other frightening and humiliating discipline procedures. There will be clear, consistent rules which apply to all children and understood by all. When one child has done something wrong, he/she will be given consequences, not the whole group of children. The sound of the environment should be primarily that of pleasant conversation, spontaneous laughter, and exclamations of excitement, rather than yelling, harsh voices or enforced quietness.

INTERACTION WITH PARENTS

Staff and parents should communicate regularly to minimize potential conflicts and confusion for children. Parents are welcomed visitors to the C.C.C. at any time. The staff will establish a verbal and/or written system for sharing day-to-day happenings that may affect a child. Changes in a child's physical or emotional state should be shared by the parent to the staff or by the staff to the parent when the changes are deemed important or significant. Parents will be informed about the C.C.C.'s program through emails, newsletters, bulletin board information, frequent notes or other similar means.

PLANNING

The staff meets regularly for joint planning and consultation. The meetings are held to develop program plans, to discuss needs of individual children and to determine the program and working conditions are appropriate. The staff is provided paid planning time. Hence, all planning and paper work should be done before the children arrive or after most have left for home.

The planned activities should reflect the Lake of the Woods Church philosophy and goals for the children, while providing a balanced schedule of activities daily. The plans should be flexible enough to be changed with the need or interest of the children change, or to cope with changes in weather or other situations (i.e., power failure) which effect routines without unduly alarming the children.

The staff will maintain the quality of their education and child care ability by obtaining at least sixteen (16) hours of training annually.

HEALTH AND SAFETY

Children should be under the supervision of at least one adult always. There must always be at least two adults on property at all times the C.C.C. is open. The staff should be aware of the health of each child. Individual medical problems and accidents will be recorded and reported to each staff member and to the parents. Adequate first aid supplies shall be readily available, and each staff member will be trained in First Aid and CPR. The Lake of the Woods Rescue Squad shall be called for any emergency.

If available the C.C.C.'s Director Office shall be the designated place away from the children's activity area for children who are ill, injured, tired or emotionally upset. The alternative would be to place a fold out chair or floor mat on the floor in an area secluded from the other children.

Medications for which proper documents are on file will be stored in a secure area and dispensed by the Director or her staff who have been trained in dispensing medication and **only if prescription is contained in a current prescription bottle**. The duration of any short - term medication, i.e., antibiotics, decongestants etc. must have a parental authorization for medication, if it shall expire or be renewed after ten working days by Parent and Physician's signature. Long-term prescription drug use may be accepted if a Medication Release Form is signed by the Parent and Child's Physician with complete instructions and duration of medication to be taken. The staff will not under any circumstances administer non-prescription drugs. Written records of dispensation will be maintained.

Any child arriving after the scheduled start time of the C.C.C. shall be greeted by a staff member who should ascertain if providing a snack is necessary. Then the child should be integrated into the activities of the moment. If a child who is expected to attend does not arrive on the school bus, the staff will immediately take steps to verify the following:

1. If the parent knows the location of the child (call home, work, emergency numbers).
2. If the child attended school that day (call school).
3. Question the other children from the same school bus as to whether the student was on the bus and where he/she left the school bus.
4. Ask L.O.W. Security to check the child's home and inquire of neighbors if they have seen the child.
5. In conference with the parent/guardian and the L.O.W. Security, the decision shall be made as to the next steps to take to locate the child.

In case of serious injury or medical emergency, staff shall follow standard First Aid procedures and contact the L.O.W. Rescue Squad. Parents or emergency contact persons shall be called immediately.

The church building has an automatic dialing system in case the heat or smoke detectors are activated. The system is programmed to notify 911 and the L.O.W. Security. Emergency lights are maintained throughout the building in case of a power failure. The L.O.W. Association has an evacuation plan covering the section in which the church is located. In the event of a natural disaster the C.C.C. members and staff would be evacuating through the Wilderness Battlefield National Park on the trail off Church Lanes which leads to Route 601.

Hazardous substances including cleaning supplies, insecticides and pesticides shall be kept away from food preparation and storage areas in a locked place separate from the Club activity area. Dish soap and cleanser may be kept in the locked kitchen cabinet. Other materials listed above will be locked in the custodian's closet which no key accessible to the children. Hazardous art and craft materials (listed in Appendix III in Licensing Standards) shall not be used with the children.

All medications, cosmetics or other harmful items belonging to staff members shall not be stored in purses, pockets or other areas that are accessible to children. Smoking is not permitted in the church building, or outside the building in the presence of the children.

The staff will wash their hands before handling food items, and the children should be encouraged to maintain good cleanliness habits. The snacks and/or meals will be planned to meet the child's nutritional requirements as recommended by the Commonwealth of Virginia licensing procedure manual. At least one staff member (or volunteer) shall sit with the children during snacks or meals and may eat with them if they so choose.

Indoor and outdoor environments should be safe, clean, attractive, and spacious. The children will each have their own hook where they may keep their personal property. The knowledge of the location of each child shall be maintained always. Periodically (two to three times per day) a count is to be made of the children inside and outside to be sure the children who are supposed to be on the property are present. If it is found that a child is missing and has not been picked up by his or her parent, the following procedure is to be followed.

1. Contact the L.O.W. Security to alert them of the situation and to assist in search for the child.
2. Contact the parent, guardian, or emergency contact to inform them of situation.
3. A staff person will follow the probable route(s) to the child's home to see if the child has gone home.
4. If the child is not found in an initial search, then the Orange County Sheriff's Department will be contacted and notified of the runaway, kidnapped, or lost child.
5. The director shall remain in charge of the situation until a sheriff has taken charge.
